According to the old German tradition the Arctomys Monax, ailas "Ground-Hog," comes out of his hole for the first time after his long winter sleep on Candelmas Day. If he sees his shadow he will scurry back as fast as his short legs will carry him and will remain there for will carry him, and will remain there six weeks. This action on the part of the ground-hog means that six weeks of bad, stormy weather will follow. If he does not see his shadow, then fairly good weather will prevaid for the remainder
